Subpart D—Evaluation Change Supplements

§ 1953.30 Definitions.

An evaluation change would be required as a result of an evaluation finding by the Assistant Secretary. Special and periodic evaluations of a State program may show that some portion of a State plan has an adverse impact on the implementation of the State program. Examples of such evaluation findings would include a report that the public employee program as approved is not, in operation, providing for a program as effective as the standards in the approved plan; or that through a reduction in personnel or funding, the State may no longer have adequate resources for administration and enforcement of standards.

§ 1953.31 Submission and consideration of evaluation changes.

(a) Within 30 days after an evaluation report has been made, the Regional Administrator shall advise the State of the evaluation findings that require a supplement and the reasons supporting this decision. This notification shall also contain a date by which State must submit the supplement. This date will generally be thirty days from the date of notification, except where the Assistant Secretary determines that the complexity and scope of the change warrants a longer period for submission of the completed change supplement. This extended submission period may not exceed six months, unless the Assistant Secretary determines that the State has made a timely and specific showing that good cause exists to extend the time limitation for that State.

(b)(1) An authorized representative of the State agency or agencies designated under section 18(c)(1) to administer the plan shall submit the supplement with 6 copies to the appropriate Regional Administrator. The supplement shall contain the change as well as a timetable for completion of any change when necessary with related documentation on the impact of the change on the State plan and its responsiveness to the Federal evaluation report.

(2) The State may also show cause, in response to the request for an evaluation change supplement, why a supplement should not be required on the ground that the State program is meeting the requirements for an “at least as effective” program. The procedures in this subpart would be applicable thereto.

(c) Upon receipt of the supplement, the Regional Administrator shall make a preliminary review of the changes. If his examination reveals any defect in the supplement, the Regional Administrator shall offer assistance to the State and shall provide the agency an opportunity, generally not to exceed 30 days, to cure such defect. After the preliminary review and after affording the State such opportunity to cure defects, the Regional Administrator, except as
